

**Neuro-Developmental Treatment (NDT)  
for Pediatric Developmental Disabilities  
3 Day Introductory Course**

**July 1<sup>st</sup>-3<sup>rd</sup>, 2019**

**Shenzhen, China**

**Presented by**

**Ms. Kim Barthel OTR**

World-renowned Occupational Therapist, Teacher and Author  
Advanced NDT/OT Instructor with the NDTA

**Organized by**

Sichuan Yang Kang Rehabilitation Recourse Center  
Representative Office Sichuan Province  
Hong Kong Society for Rehabilitation

SYNCroSI Home for Child Development

# **Neuro-Developmental Treatment (NDT) for Pediatric Developmental Disabilities**

## **3 Day Introductory Course**

**July 1<sup>st</sup>-3<sup>rd</sup>, 2019**  
**Shenzhen, China**

### **Course Description**

This 3 day course is designed to acquaint Physiotherapists, Occupational Therapists, Speech and Language Pathologists and Special Education teachers working with children with special needs with an introduction to the NDT Approach. The information presented will address current NDT principles (Day 1&2) including beginning assessment/evaluation and problem-solving handling techniques in children with developmental delay (Day3) and Autistic Spectrum Disorder (Day3). Participants will be assisted in improving their knowledge and observational skills while problem solving using NDT techniques to improve function for their pediatric clients.

Both didactic lecture and cases illustration will be presented throughout this course. In addition to didactic information, discussions will address current trends in the field of pediatrics.

### **Course design- Ms. Kim Barthel OTR**

Kim Barthel is a world-renowned occupational therapist, teacher and author - actively supporting multi-disciplinary function and healing in many cultures around the globe. A pioneer in reinforcing the critical importance of relationship, she is known for blending cutting-edge developments in neuroscience with the art of compassionate inquiry. With 35+ years as an OT, Kim is an advanced NDT instructor with vast experience in supporting complex behaviour, movement, mental health, autism, trauma-informed practice, sensory processing and attachment. As a co-founder of the SYNCroSI method of holistic child development services, Kim is instrumental in leading the best practices at the first SYNCroSI Centre for Children in Shenzhen, China. Based in Canada, Kim is on the road over 300 days a year, both teaching and learning. Her mission is to support the conscious evolution of the human spirit.

# Neuro-Developmental Treatment (NDT) for Pediatric Developmental Disabilities

## 3 Day Introductory Course

July 1<sup>st</sup>-3<sup>rd</sup>, 2019  
Shenzhen, China

### Learning Objectives

Upon completion of this course, participants will be able to achieve a preliminary understanding of:

- 1) The required prerequisite sensory motor components and pattern of development in the first 12 months
- 2) Typical posture and movement pattern demonstrated by the children with abnormal tone
- 3) NDT concepts, principles of assessment and treatment
- 4) Neurobiology of movement disorders in DD and ASD
- 5) Typical motor development and the motor control issues in DD and ASD
- 6) Introductory skills in hands-on facilitation of the movement patterns in the children with DD and ASD

# **Neuro-Developmental Treatment (NDT) for Pediatric Developmental Disabilities**

## **3 Day Introductory Course**

**July 1<sup>st</sup>-3<sup>rd</sup>, 2019**  
**Shenzhen, China**

### **Course Content**

- **July 1<sup>st</sup>-2<sup>nd</sup>, 2019 (Day 1 & 2): The philosophy of NDT and an introduction to the typical and atypical development of movement**

Neuro-Development Treatment provides a foundation of motor development and the treatment facilitates typical movement patterns. This course provides a preliminary understanding of the philosophy of NDT, its therapeutic concepts and principles, assessment and intervention, and typical and atypical developmental of movement patterns for the first year of life (0-12months).

- **July 3<sup>rd</sup>, 2019 (Day 3): NDT intervention on Developmental Delay (DD) and Autistic Spectrum Disorder (ASD)**

This course provides a basic understanding of the application of NDT on children with Developmental delay (DD)and Autistic Spectrum Disorder (ASD). This course will enable the participant to broaden their view on the neuromotor challenges in ASD and DD, with emphasis upon handling skills. After taking this 3 day course, participants will be well-equipped with a strong foundation for the 5 day NDT practicum.

### **Certification:**

Upon completion of this course, participants are awarded the Certificate of Attendance by the Hong Kong Society for Rehabilitation and are eligible for the enrollment of the “5 Day -practicum of Neuro-Developmental Treatment (Basic Level) (1<sup>st</sup> phase: July 5<sup>th</sup>-9<sup>th</sup>, 2019)” led by Ms. Kim Barthel.

### **Targeted Participants:**

Educators, Occupational therapists, Physical Therapists, Speech & Language Pathologists, Medical Professionals and Parents

**Language:** English (Mandarin interpretation available)

### **Course information**
