INSTRUCTOR

Kim Barthel, OTR

Kim Barthel is an International Speaker, Teacher and Author from Canada. Kim is an advanced Neuro-Developmental Treatment (NDT) instructor, a Sensory Integration instructor, and an Occupational Therapist with 35+ years experience. Owner of her own company, Relationship Matters, Kim trains Therapists and Educators the world over. Kim's special interests include complex behavior, neurobiology, attachment theory, trauma and mental health; she is almost constantly travelling — speaking, facilitating and learning.

Mary Bridge Children's Therapy Services

Mary Bridge Children's Therapy Services provides early, comprehensive interdisciplinary diagnostic evaluations, individual therapy, educational and social services and follow up care for children with developmental deficits and neurological disorders.

Becoming a Behavioral Detective: A Sensory Processing Approach in Looking Beyond the Behavior

COURSE DESCRIPTION

This two-day workshop is designed to support a wide range of professionals (speech/language pathologists, occupational therapists, physical therapists, social workers and special educators) who work collaboratively towards the enhancement of a child's learning, function and well-being. Attunement, co-regulation, communication, sensory processing and engagement will be discussed throughout. Explore the neurobiology of sensory processing intervention, developmental disability and attachment, and the art of providing therapy for children with a variety of neurological, behavioral, mental health and communication challenges. Through lecture, videotape analysis, treatment demonstration and practical sessions, clinicians and caregivers will leave the workshop energized to problem solve client intervention in a new way!

UPON COMPLETION OF THIS COURSE, YOU WILL BE ABLE TO:

- Describe the neurobiology of challenging behavior
- Distinguish between sensory, emotional and cognitive components of behavior
- Analyze various overlapping contributions to behavior problems
- Integrate theories of intervention into a holistic approach to complex behaviors
- Develop treatment techniques, relationship-building tools and dialoging skills with complex situations.

March 8th, 2019

- 8:30am** It's All the Same Buckets of Chemicals: Arousal Theory
